

OOZOO - CHEATSHEET

SMARTWATCHES

Thank you for your order of our new smartwatches, below you'll find a cheatsheet with a short summary of all the functions of the smartwatches.

- The OOZOO Smartwatch connects with your phone through Bluetooth and the corresponding app (see QR-code below). It is supported by both Android and IOS operating system.
- The watch charges via the included USB-charger by means of an magnetic connection on the back of the watch.
- The time will be set automatically if the watch is connected with the phone.
- The following functions are available on the smartwatch:
 - calorie counter
 - heart rate monitor
 - blood pressure monitor
 - blood oxygen monitor
 - sport mode (running, cycling, walking, etc.)
 - sleep monitor
 - current weather
 - check messages (WhatsApp, SMS, etc.)
 - music control
 - camera control
 - stopwatch
 - 3 different OOZOO dials, more dials via app.
 - dials with customizable background
- The watch is IP67 certified, which means it is dust-tight and water-resistant (not suited for swimming or taking a shower).
- The battery will last up to 7 days. (depending on use)
- The manual is available at www.oozoo.com/sw/
- Proof of purchase/receipt is customer's warranty.
- Scan the QR-code below to download the app.
